Description

MARCH SPECIAL - Get a FREE Portable Unit (Value \$279) with Purchase of House Unit

Special is limited to one per customer/household. Shipped with purchased unit, no split orders.

The Dynamically Enhanced Natural Action Whole House Structured Water Unit with 24 Ball System is for 2,500 square feet and above. The House Unit is for the person who wants the full effects of dynamically enhanced drinking water, softer skin in the shower, water softening for the entire house and re-scaling of pipes and fixtures. The line of Dynamically Enhanced Units have a flow-form inside that is made from a combination of proprietary materials that dynamically enhance the energy of the unit and create a static energy that exists even before the water flowing through the unit is structured. This is easily installed in the water line this side of the water meter.

The benefits from this installation is the unit's ability to give dynamically enhanced water at each water faucet, remove unwanted chemical buildup in the pipes and other units as well as the benefits to either hand watering or sprayer units in gardening.

Dimensions: L: Approx. 18 1/2" (varies according to fitting type)

Weight: Varies Approx. 2 lb 6 oz.

Pipe Types: Copper, PEX, CPVC, PVC, Galvanized, Adaptable, NPT (all sizes)

FREE WORLDWIDE SHIPPING!*

IMPORTANT OPTIONS NOTICE: For Whole House Structured Water Unit's you must select the proper Unit below for your Size (1", 3/4", etc.) & Type (Copper, PVC, CPV, etc.) of Pipe. If you have a type of pipe that is not listed here please call 928-202-9155. Here are instructions for [Measuring Pipe Size](#).
