Description

DE Commercial Unit

The Dynamically Enhanced Natural Action Commercial Structured Water Unit brings dynamically enhanced structured water to industries such as resorts, farms, factories and more. The line of Dynamically Enhanced Units have a flow-form inside that is the same structure and size as the flow-form in the current units, but is made from a combination of proprietary materials that dynamically enhance the energy of the unit and create a static energy that exists even before the water flowing through the unit is structured ([Learn More](#)). The Dynamically Enhanced Natural Action Commercial Structured Water Unit is similar to the Whole House Unit except that it has a larger pipe fitting and works better for hotels, motels, restaurants and other large commercial customers. Please be sure to select the specific Unit for your pipe system. *These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
